Rohan Verma

Android Developer
Chandigarh, India | rohan.verma.sample@example.com

1.5 years of experience

Summary
Android Developer skilled in Kotlin and Jetpack Compose, building offline-first mobile applications with clean MVVM architecture.

Experience
Android Developer - AppNest Studio - 2023-2024
Built Android apps using Kotlin, Jetpack Compose and Room Database following MVVM architecture. Integrated Firebase for authentication and SQLite for offline storage.

Junior Developer - PixelCraft Software - 2022-2023
Worked with Java and SQL on internal tooling. Used Git for version control and participated in Agile sprints.

Skills
Kotlin, Android Development, Jetpack Compose, Room Database, MVVM, Firebase, SQLite, Java, SQL, Git, Agile
